FILE HEADING.

Execution of extraordinary printing work for public Dept.

From

The Secy. to Govt. P.W. Dept. Bangalore.

No. 822	Dated 28.6.1916	Received
Diary No. 9589.	Enclos. Spare Copies.	Serial No. 109

BRIEF ABSTRACT OF LETTER.

Referring to the G.O. of 3rd January 1916, forwards a copy of letter received from the Secy. of The Engineers' Association representing that it is not possible to meet any expenditure on account of printing work in coming years, and states that, as his office contingent grant has been exhausted upon already, the concession of printing the proceedings at the Press may be continued.

NOTES AND ORDERS.

In the G.O. of 3rd January last the Govt. sanctioned, as a special ^{case} the printing of all work of the Eng'rs Association free of cost for the year 1915-16 with the observation that the concession would not continue in addition to the money grant made to the Assn.

KARPUR SHRINIVASRAO, Esq., B.Sc., L.C.E.,

Offg. Secretary to the Government of Mysore

Public Works Department

To

D.M.Narasinga Rao, Esq., B.A., B.L.,

Secretary to Government,

General Department.

Sir,

Adverting to Government Order No.G.9192-4/G.P.8-15-49 dated the 3rd January 1916, directing that all the work of the Mysore Engineers' Association be printed, free of cost, by the Superintendent, Government Press, only during the year 1915-16, as a special case, I have the honour to forward herewith a copy of letter No.79 dated the 11th March 1916 (with its enclosure) received from the Honorary Secretary of the Association representing that it can ill afford to meet any expenditure on account of printing work in the coming years, as there is no credit balance in favour of the Association.

2. The contingent grant of the Chief Engineer's office has already been trenched upon to the extent of Rs 250, the amount being the grant-in-aid payable annually for the purchase of books and periodicals required for the use of the Association. The cost of printing the quarterly "Bulletins" issued by the Association is also charged to the contingency of this office.

3. The remaining work of the Association (Proceedings, notices, and other official publications) might cost Rs 400, if

of the Mysore Engineering Association
free of cost in the Government
Press.

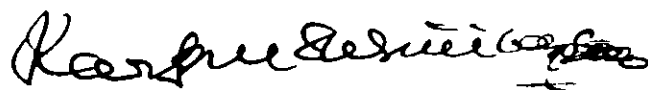

printed elsewhere. If it be ordered that this amount should be charged to the funds of the Association, it can only be met from what is set apart for the purchase of periodicals and books. But the utility of this Institution depends on the amount of literature made available for the use of its members and it will be undesirable to curtail the expenditure under this head.

4. In these circumstances, I request that the Government may kindly be moved to continue the concession, till now shown to the Association, of getting all their official publications printed, free of cost, at the Government Press.

I have the honour to be,

Sir,

your most obedient servant,

Secretary to Government,

P.W. Department.

Letter No.79 dated the 11th March 1916 from the
Honorary Secretary, Mysore Engineers' Association, Bangalore,
to the Chief Engineer of Mysore

With reference to your endorsement No.105 dated
the 6th January 1916 communicating Government Order No.G.9192-
4/G.P.8-15-49 dated the 3rd January 1916, I have the honour
to report as follows:-

In their order the Government have been pleased to
direct the free printing of the Association work in the
Government Press only for the official year (1915-16) desir-
ing at the same time the submission of proposals regarding
the future arrangements for printing such papers and to state
what further assistance is required of the Government in the
matter.

In this connection I am desired by the Executive
Committee to submit the following representation.

In their Order No.G.12181-82/G.P.3-14-14 dated the
8th May 1915, the Government have been pleased to authorise
the printing of the Bulletin of the Association in the
Government Press, the charge being debited to the Public
Works Department, under the head "Contingencies of the Chief
Engineer's office"

In regard to the remaining work of the Association
which was being printed hitherto free at the Government Press
as per Government Order No.329-32/2600-03 dated the 11th
April 1907, I am to state that its cost is estimated by the
Superintendent, Government Press, at about Rs 400 per annum.

The Committee regrets to state that the slender resources of the Association will not admit of this charge being met out of its funds. The Committee therefore respectfully prays the benign Government will order the printing to be done free as hitherto. If, however, the Government are not pleased to grant such a concession, the Committee will be grateful if the Government will increase the annual grant by an amount equal to the moiety of the above cost.

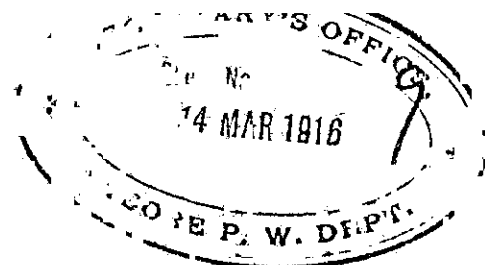

I have herewith enclosed, for the information of the Government, a statement of receipts and charges of the Association including the present annual grant of Rs 250 from which it will be seen that the printing charges will press rather heavily and that some help is therefore necessary.
